Discover the Future with Hugging Face

r />

Company Overview

Hugging Face is more than just a platform; it's a thriving AI community propelling the future of machine learning. With a focus on collaboration and innovation, we provide a space for like-minded individuals to explore models, datasets, and applications in a seamless environment.

r />

Key Products/Services

3>Models

Explore over 1 million trending models like nari-labs/Dia-1.6B and Microsoft/bitnet-b1.58-2B-4T.

3>Datasets

Discover and access datasets such as Anthropic/values-in-the-wild and zwhe99/DeepMath-103K to enhance your ML tasks.

3>Spaces

Create and customize applications with Spaces like DeepSite, InstantCharacter, and UNO FLUX.

3>Enterprise Solutions

From optimized inference endpoints to dedicated support, our Enterprise solutions offer advanced AI technology with enterprise-grade security.

r />

Target Audience Benefits

Accelerate ML projects with compute solutions starting at $0.60/hour for GPU. Collaborate with industry-leading organizations like Amazon, Google, and Microsoft. Explore the diverse world of ML, including text, image, video, audio, and 3D modalities. Build your profile and share your work to showcase your skills to the global ML community.

r />

Call to Action

Sign Up now to experience the power of community-driven AI and take your machine learning projects to new heights!
